Migratory Bird Rule Factors ¹	If Known		If Unknown (Use Best Professional Judgement)		
	Yes	No	Predicted to Occur	Not Expected to Occur	Not Able to Make Determination
Is or would be used as habitat for birds protected by Migratory Bird Treaties?					✓

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 - site conditions; paragraphs 2-3 - rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 - site information on waters of the U.S. occurring onsite): Generally, water from onsite features flow west to the Natomas East Main Drainage Canal. But 2 small depressional areas and a roadside ditch are entirely confined within their boundaries. Due to their small size, it cannot be determined if wildlife would use these features. Additionally, the sites are not grazed in the area surrounding those isolated wetland depressions.
